Allowable Subject Matter

1. Claims 1-4 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art taken singly or in combination does not teach or suggest, a screen display apparatus among other things, comprising a vertical expander for modifying the image to fit the display unit and a YUV-RGB converter for converting the image from a YUV format to a RGB format.

The closest prior art, reference Post et al. (U.S. Patent No. 5,402,148) teaches a display apparatus comprising a first memory for storing image data and background screen video data that has high resolution, and a second memory storing text and graphics data having resolution lower than that of the first memory; an image read out processor that combines video data read out from the first and second memory to form a single combined video stream to be displayed on a single monitor.

However, the image output processor as taught by reference Post et al. does not include the above mentioned vertical expander and YUV-RGB converter.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
